Art Unit: 2818

## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-21 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a device for reinitializing to a first state (state  $|0\rangle$ ) a quantum bit device having a first state and a second state (state  $|0\rangle$  and state  $|1\rangle$ ) associated with respective energy levels  $E_0$  and  $E_1$ , comprising first means for generating a temporary increase in the probability of the quantum bit device relaxing from the second state to the first state and second means for absorbing the transition energy  $E_1$ -  $E_0$  yielded by the quantum bit device when it relaxes from the second state to the first state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copies of the references are not being furnished with this Office Action per MPEP § 707.05(a).

Application/Control Number: 10/735,604

Art Unit: 2818

a) U.S. Patent 6,597,010 to Eriksson et al. discloses a quantum dot devices and

Page 3

quantum computing using nanostructured logic gates.

b) U.S. Patent 6,678,450 to Franson discloses an optical method for quantum

computing utilizing nonlocal effects to construct quantum gates.

3. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Tu-Tu Ho whose telephone number is (571) 272-1778. The

examiner can normally be reached on 6:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, DAVID NELMS can be reached on (571) 272-1787. The fax phone number for the

organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
